

Attend a Live Meeting in Rockland, MA!

Thursday, May 2, 2019, 7:30am - 3:00pm (breakfast and lunch included; registration starts at 7:15am)

Doubletree Rockland, 929 Hingham Street, Rockland, MA

Planned in partnership with: Medical Committee Co-Chairs Dr. Daniel Muse, Signature Healthcare and Sarah Cloud, Director of Social Work for Beth Israel Deaconess Hospital-Plymouth

SCOPE of Pain is an in-depth training that focus on effective communication skills and the potential risks and benefits of opioids for managing acute and chronic pain. The training includes the assessment of opioid misuse risk and recognition and treatment of opioid use disorder.

Earn Credits for: CME, CNE, ABIM MOC Part II, Risk Management and Opioid Education

Learn validated clinical tools that can be integrated into busy clinical practices, and clinical pearls for managing patients on opioid therapy for acute and/or chronic pain.

Tuition: \$25

Who is this for? Physicians, nurse practitioners, registered nurses, physician assistants, nurses, dentists, pharmacists, and allied health professionals whose practices manage acute and chronic pain.

SCOPE of Pain Rockland is provided by Boston University School of Medicine, with local partners The Plymouth County Drug Abuse Task Force and New England High Intensity Drug Trafficking Area (HDTA). National collaborators include the Council of Medical Specialty Societies and the Federation of State Medical Boards.

What is this training about? SCOPE of Pain is a continuing medical education/continuing nursing education activity designed to help you safely and effectively manage patients with acute and/or chronic pain, when appropriate, with opioid analgesics. Through the case of Kathy James, a 32-year-old who has a displaced right femoral neck fracture due to a motor vehicle crash, you'll learn how to:

1. Optimize safety when prescribing opioids for acute pain
2. Determine when opioid analgesics are indicated for chronic pain
3. Assess pain and prescription opioid misuse risk
4. Educate patients about opioid risks and realistic benefits
5. Monitor patients on opioid therapy for benefits and harms
6. Assess and manage worrisome opioid-taking behaviors
7. Safely taper long-term opioid therapy

Course Director: Daniel P. Alford, MD, MPH, Professor of Medicine, Boston University School of Medicine

Speaker: Jessica L. Taylor, MD, Assistant Professor of Medicine, Boston University School of Medicine

Space is limited - reserve today at: scopeofpain.org
