County-Wide Preliminary Data

1/1/26 – 3/31/26

Type of Incident: 1/1/26 – 3/31/26

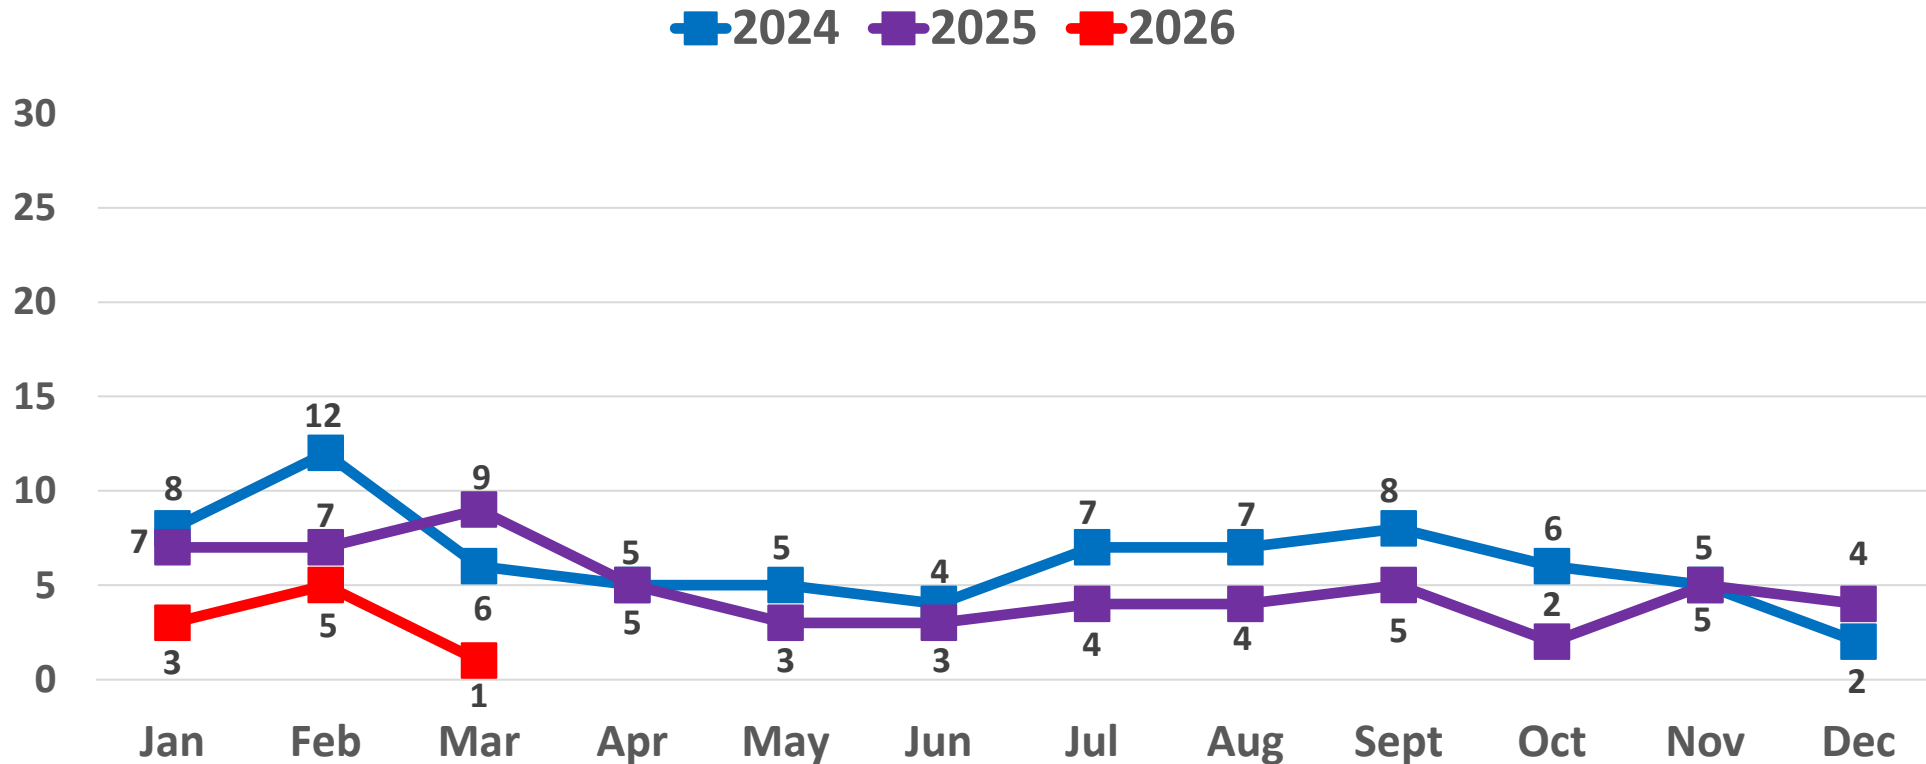

Kelley Research Associates

There were a total of **223 incidents (OD incidents, At-Risk Referrals, and Behavioral Health incidents)** recorded in Plymouth County between 1/1/26 and 3/31/26: **9 (4%) involved a fatal overdose; 86 (38%) involved a non-fatal overdose; 93 (42%)** were categorized as an “at-risk” individual, and **35 (16%) involved Behavioral Health incidents.**

April 8, 2026

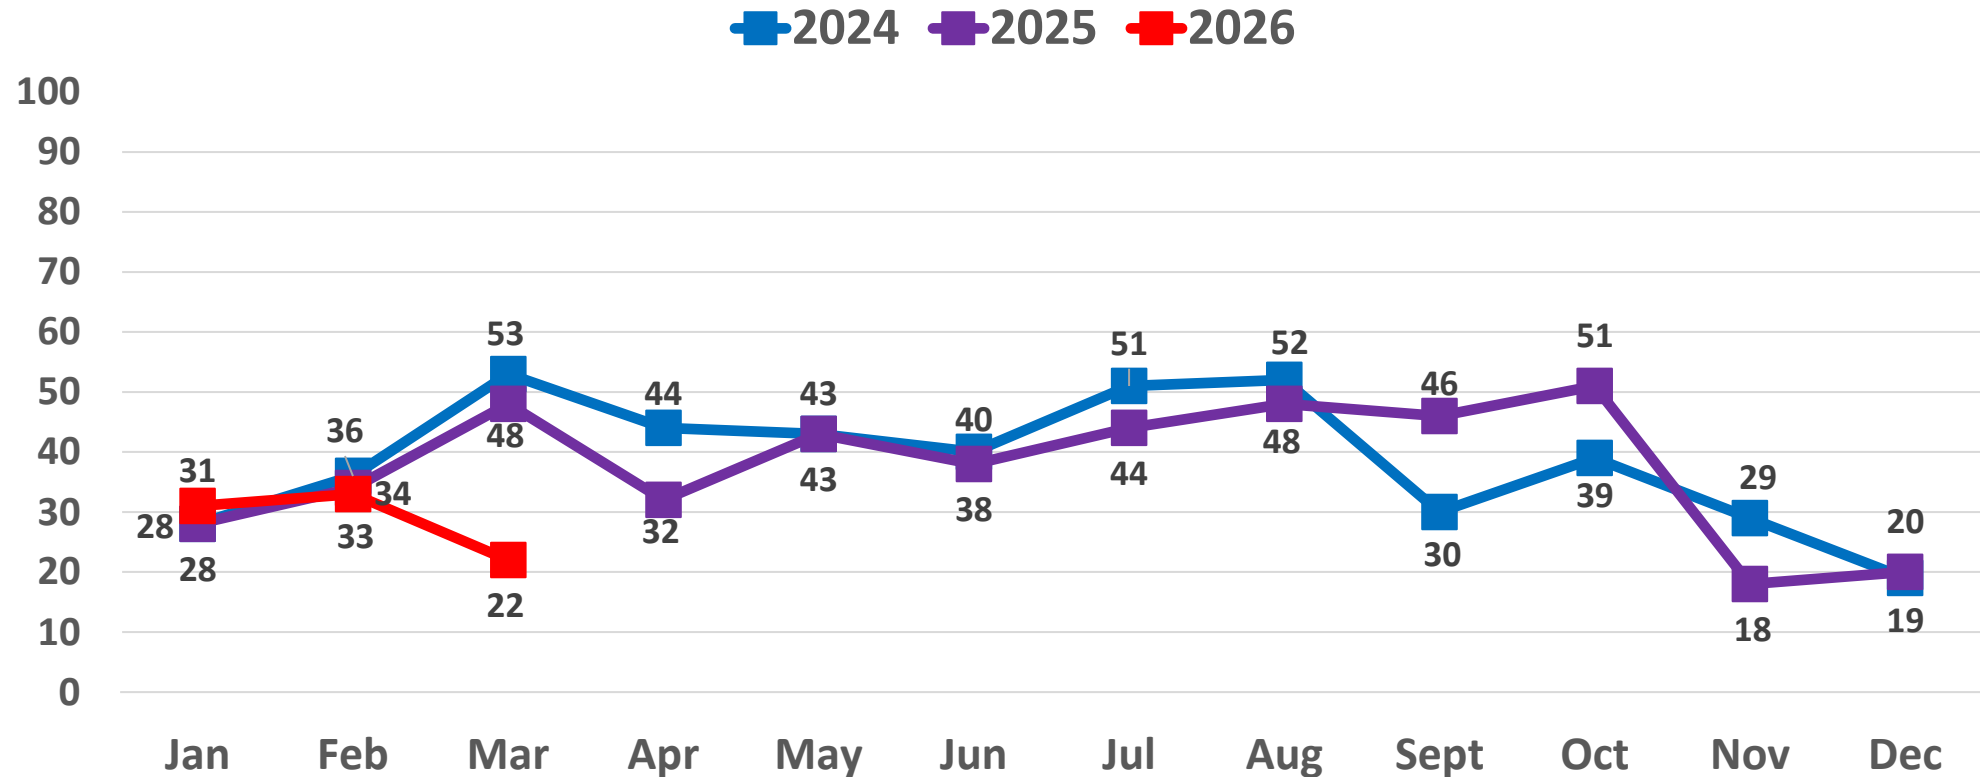

Fatal Incident Monthly Trend

Kelley Research Associates

There was on average 3 fatal ODs per month, or 9 total, in the County between 1/1/26 and 3/31/26. This is a 61% decrease over the 2025 monthly average of 8.7 or 23 total, for the same time frame.

Non-Fatal Incident Monthly Trend

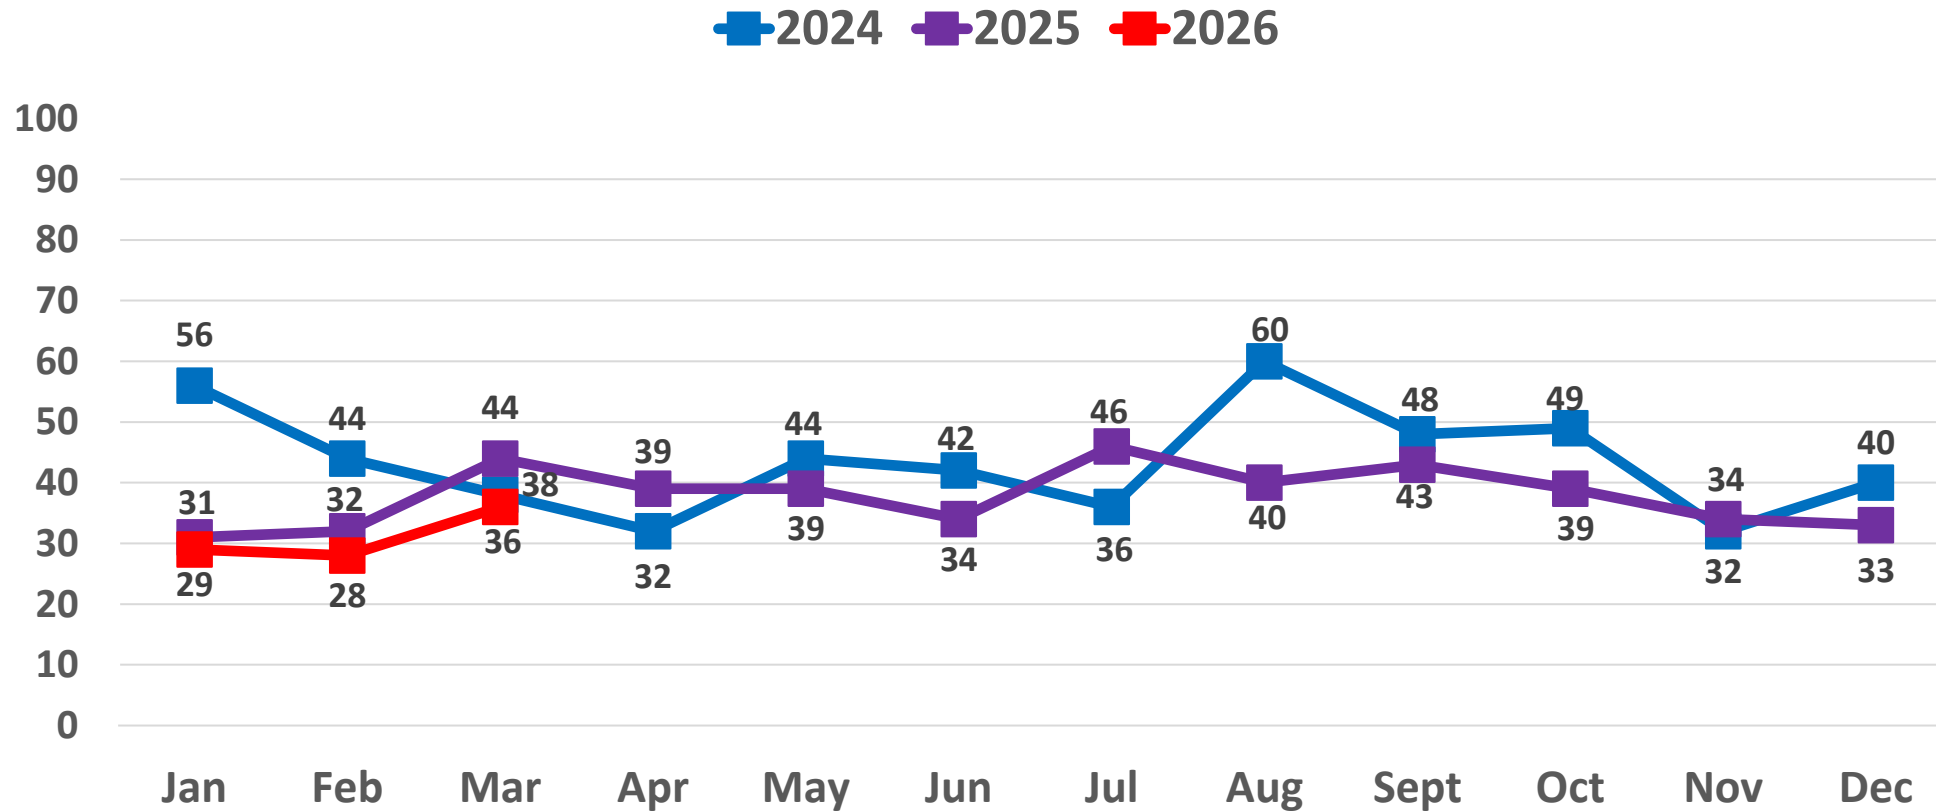

Kelley Research Associates

There was on average 28.7 non-fatal ODs per month, or 86 total, in the County between 1/1/26 and 3/31/26. This is a 22% decrease over the 2025 monthly average of 36.7 or 110 total, for the same time frame.

At-Risk Monthly Trend

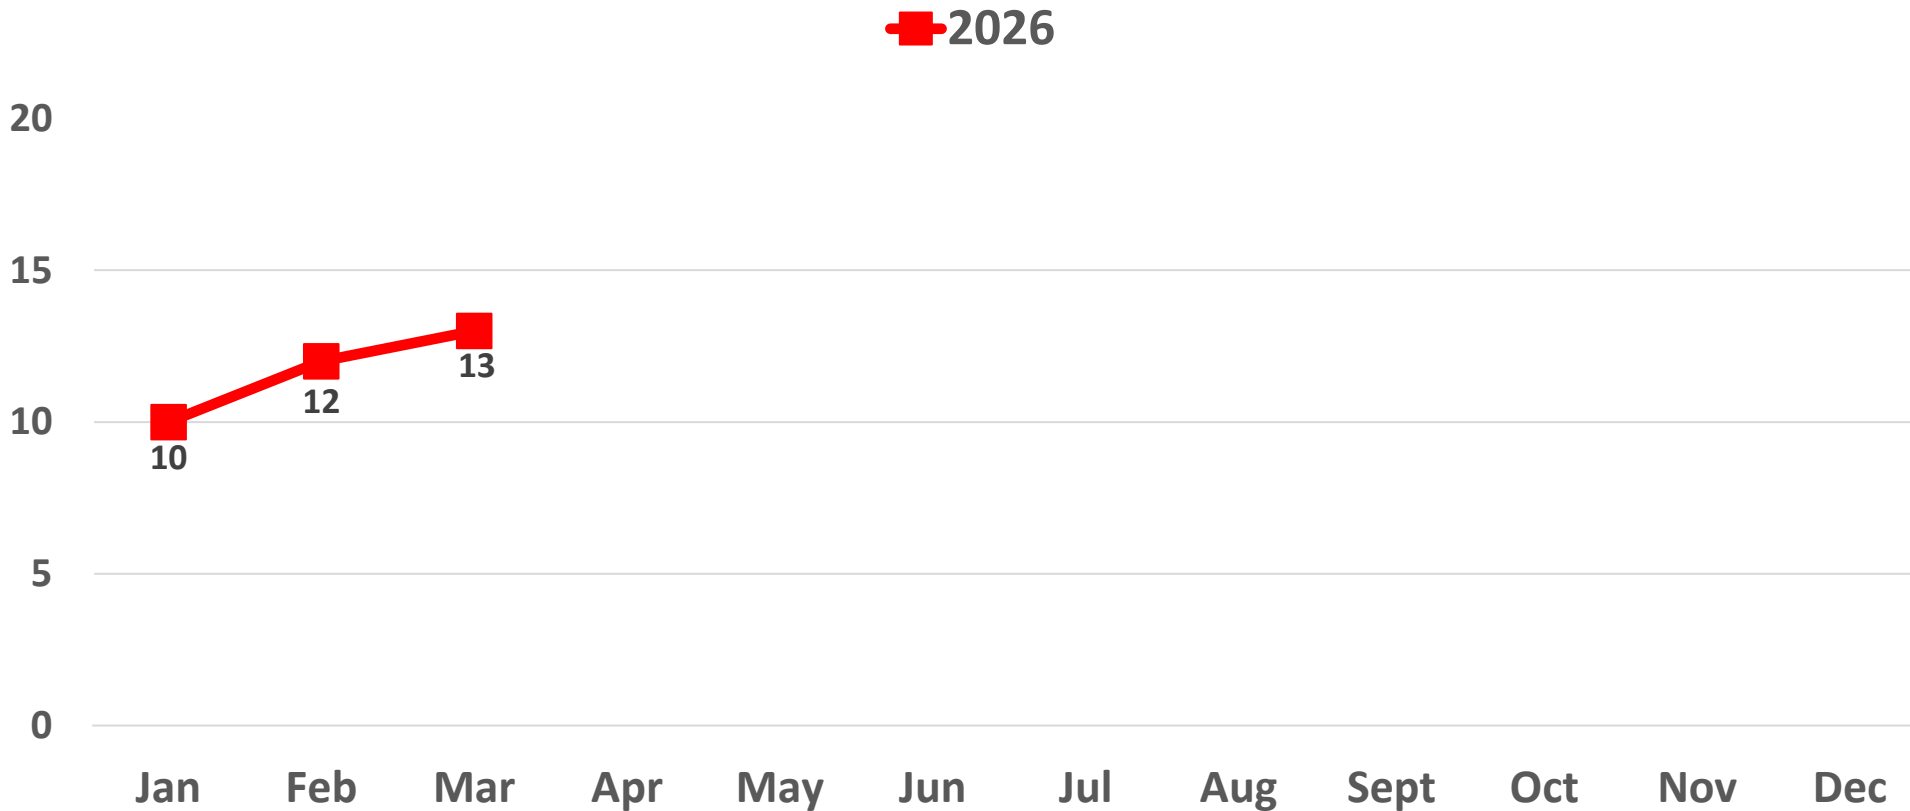

Kelley Research Associates

There was on average **31 At-Risk entries per month, or 93 total**, in the County between 1/1/26 and 3/31/26. This is a **13% decrease** over the 2025 monthly average of 35.7 or 107 total, for the same time frame. Of note, 70% (65) of the at-risk entries during this time frame are related to individuals with alcohol use disorder.

April 8, 2026

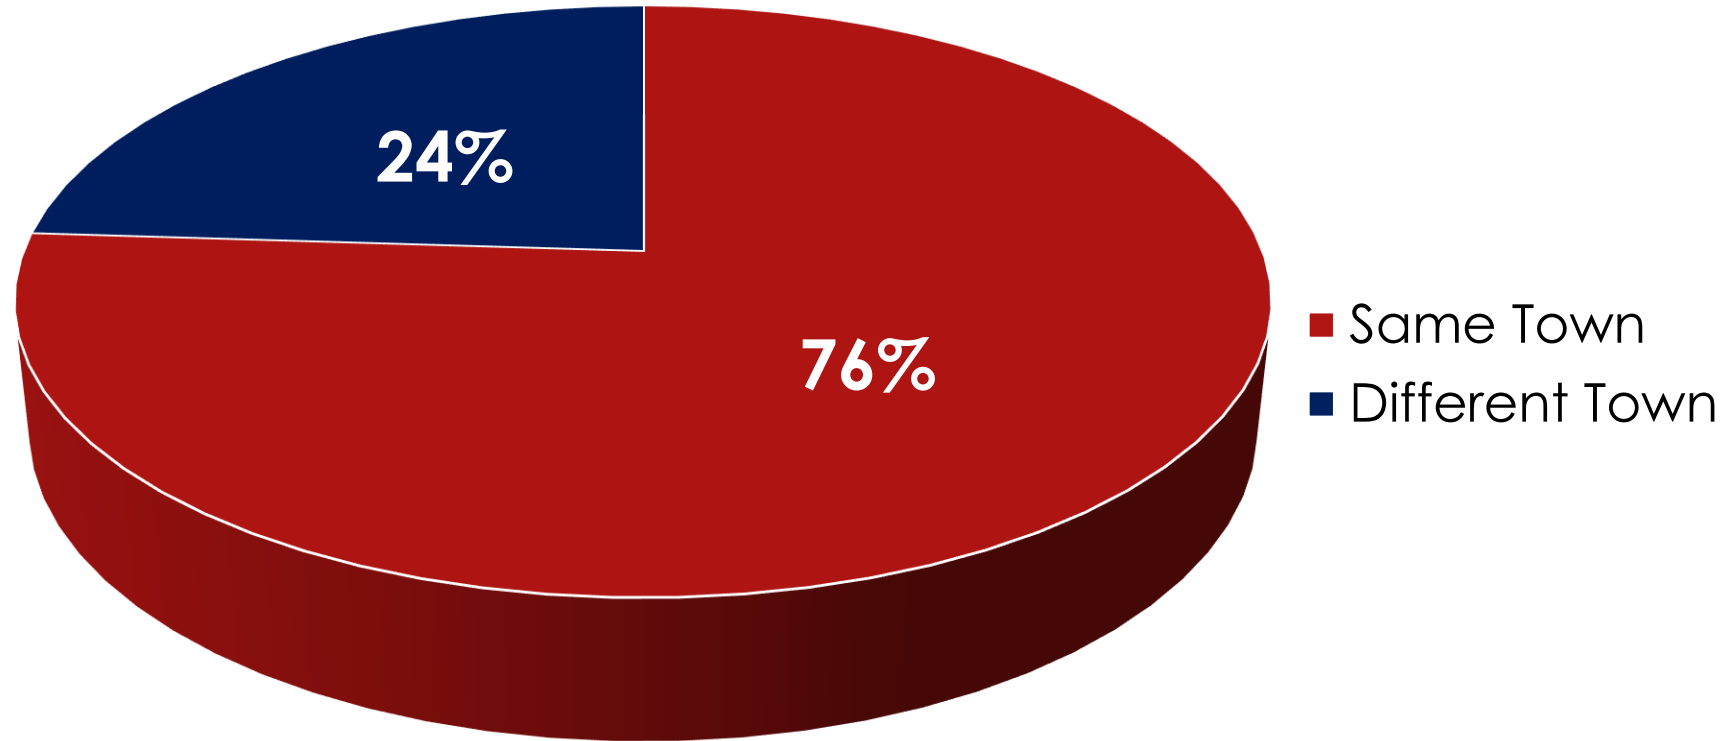

Behavioral Health Monthly Trend

Kelley Research Associates

There was on average 11.7 Behavioral Health entries per month, or 35 total, in the County between 1/1/26 and 3/31/26. Utilization of the CIMS Behavioral Health module recently began in Plymouth County. There is not prior data to compare to at this point.

Incident vs. Resident Town: 1/1/26 – 3/31/26

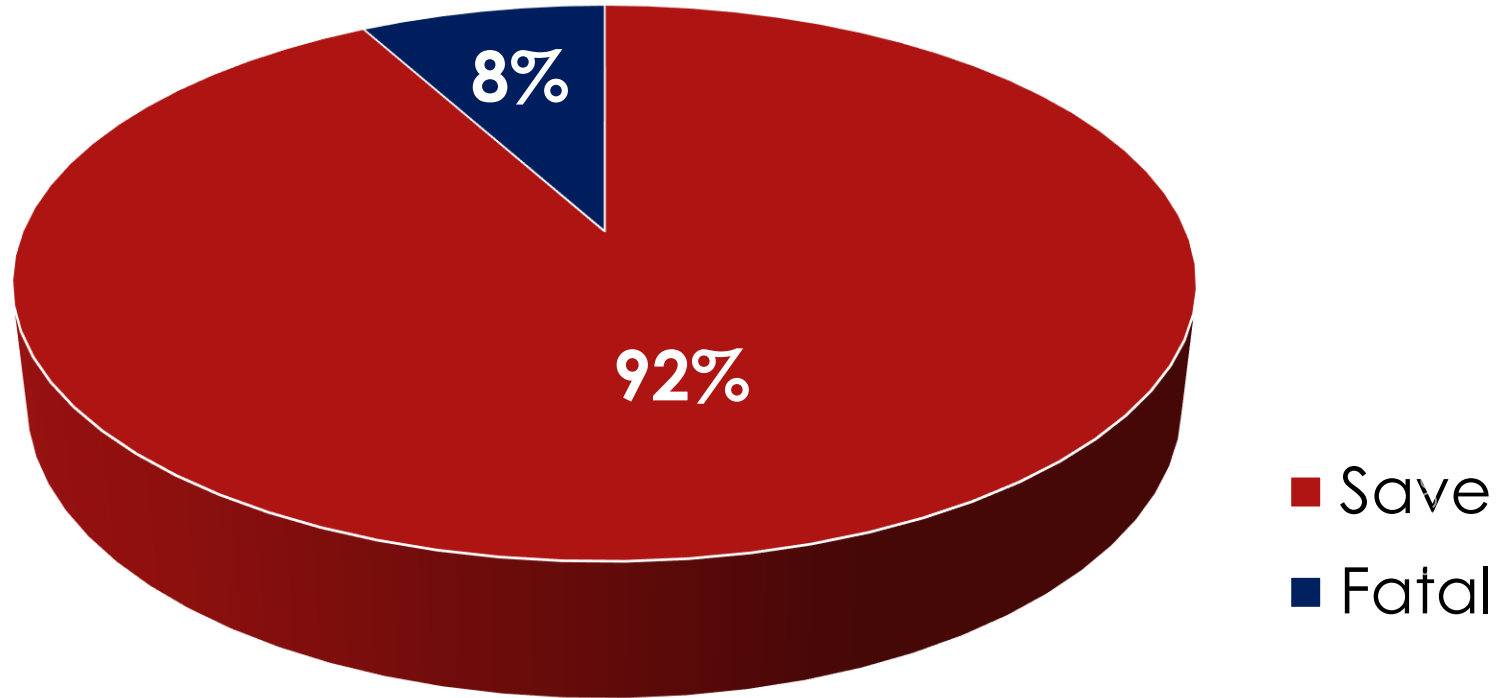

Kelley Research Associates

Analyzing just the 95 overdose incidents, **72 (76%)** of the OD incidents between 1/1/26 and 3/31/26 occurred in same town that the person lived in. However, in **23 (24%)** of the incidents the person was from a different town than where the incident occurred.

Naloxone "Saves": 1/1/26 – 3/31/26

Fifty-four percent (26) of these incidents involved Naloxone being administered by a 3rd party family/friend prior to first responders arriving.

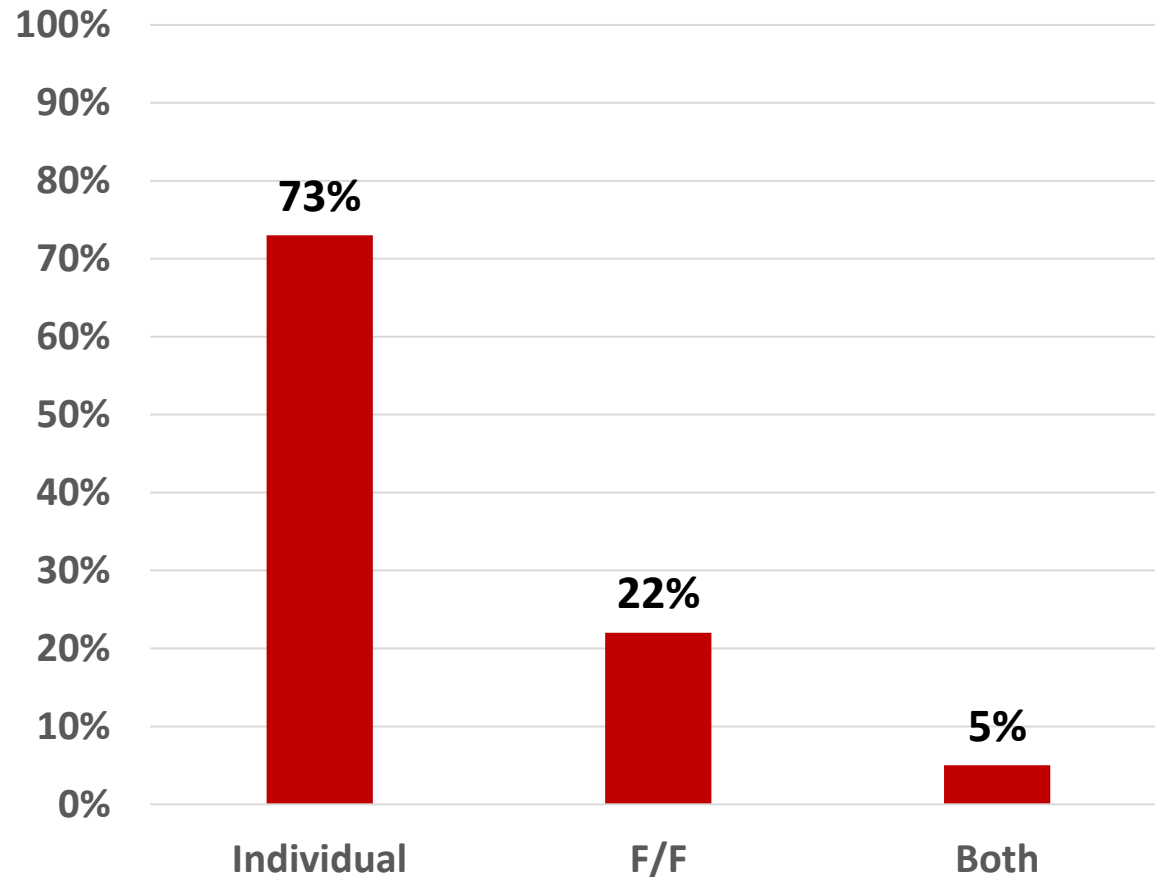

Kelley Research Associates

Again, analyzing just the 95 overdose incidents, Naloxone was administered in **48 (51%)** of the reported OD incidents. **Ninety-two percent (44)** of these events were non-fatal, while **8% (4)** of these overdoses resulted in a fatality.

Follow-Up Contact Data: 1/1/26 – 3/31/26

- **388** attempted Follow-up Contacts
- **55% (215)** were successful in having contact with either the individual who overdosed, a family/friend, or both.

Kelley Research Associates

Seventy-three percent (156) of the successful follow-up contacts (215) resulted in contact with the individual that had overdosed or was referred, **22% (48)** resulted in contact with Family/Friends, and **5% (11)** resulted in contact with both the individual and family/friends.

Successful Client Contact Outcomes

1/1/26 – 3/31/26

Kelley Research Associates

Of the 167 successful contacts with the person that overdosed or was referred (Individual Only and Both): **91% (152)** resulted in the individual accepting information/resources from the outreach team; **7% (11)** declined the offer of information/resources; and **2% (4)** of individuals were already seeking services.

April 8, 2026

Tier 2 Follow-Up Analysis

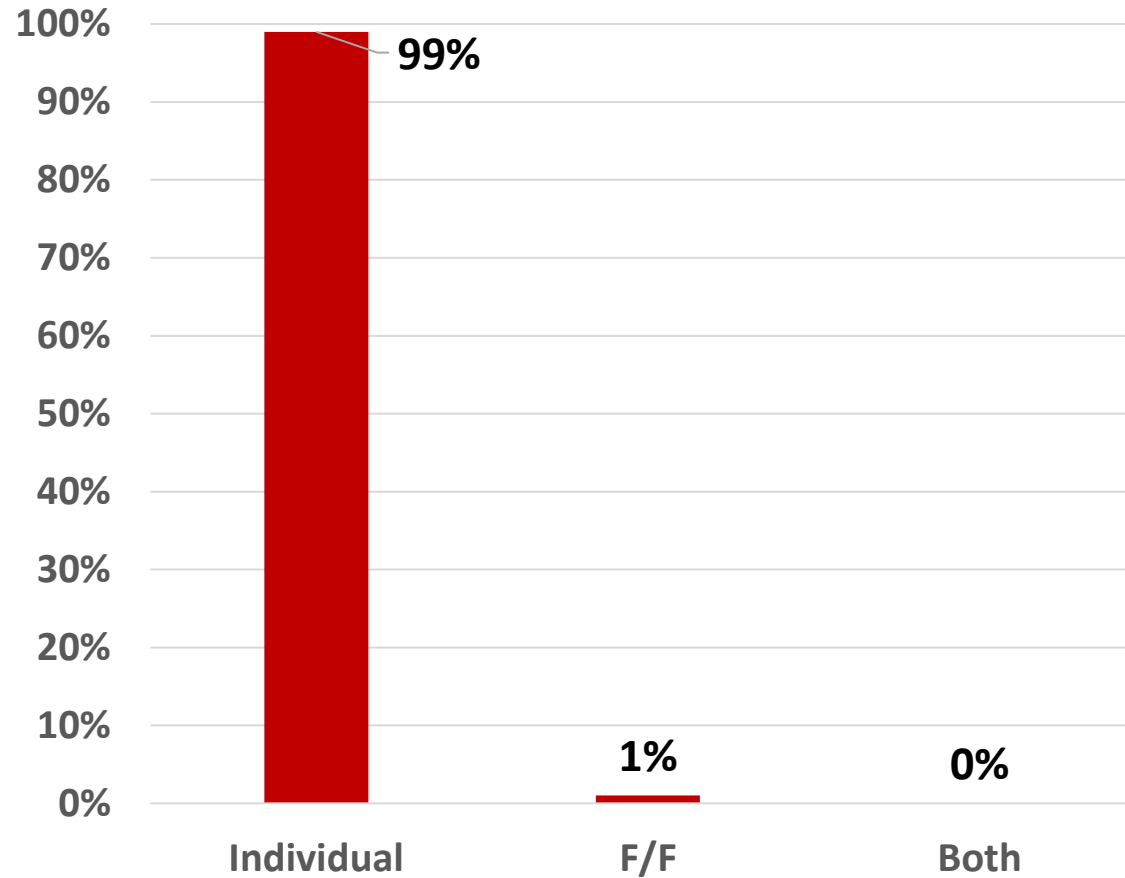

Tier 2: Follow-Up Contact Data

1/1/26 – 3/31/26

Kelley Research Associates

- **231** attempted outreach visits (in-person, phone, electronic, other)
- **54% (125)** were successful in having contact with either the Tier 2 client, a family/friend, or both.

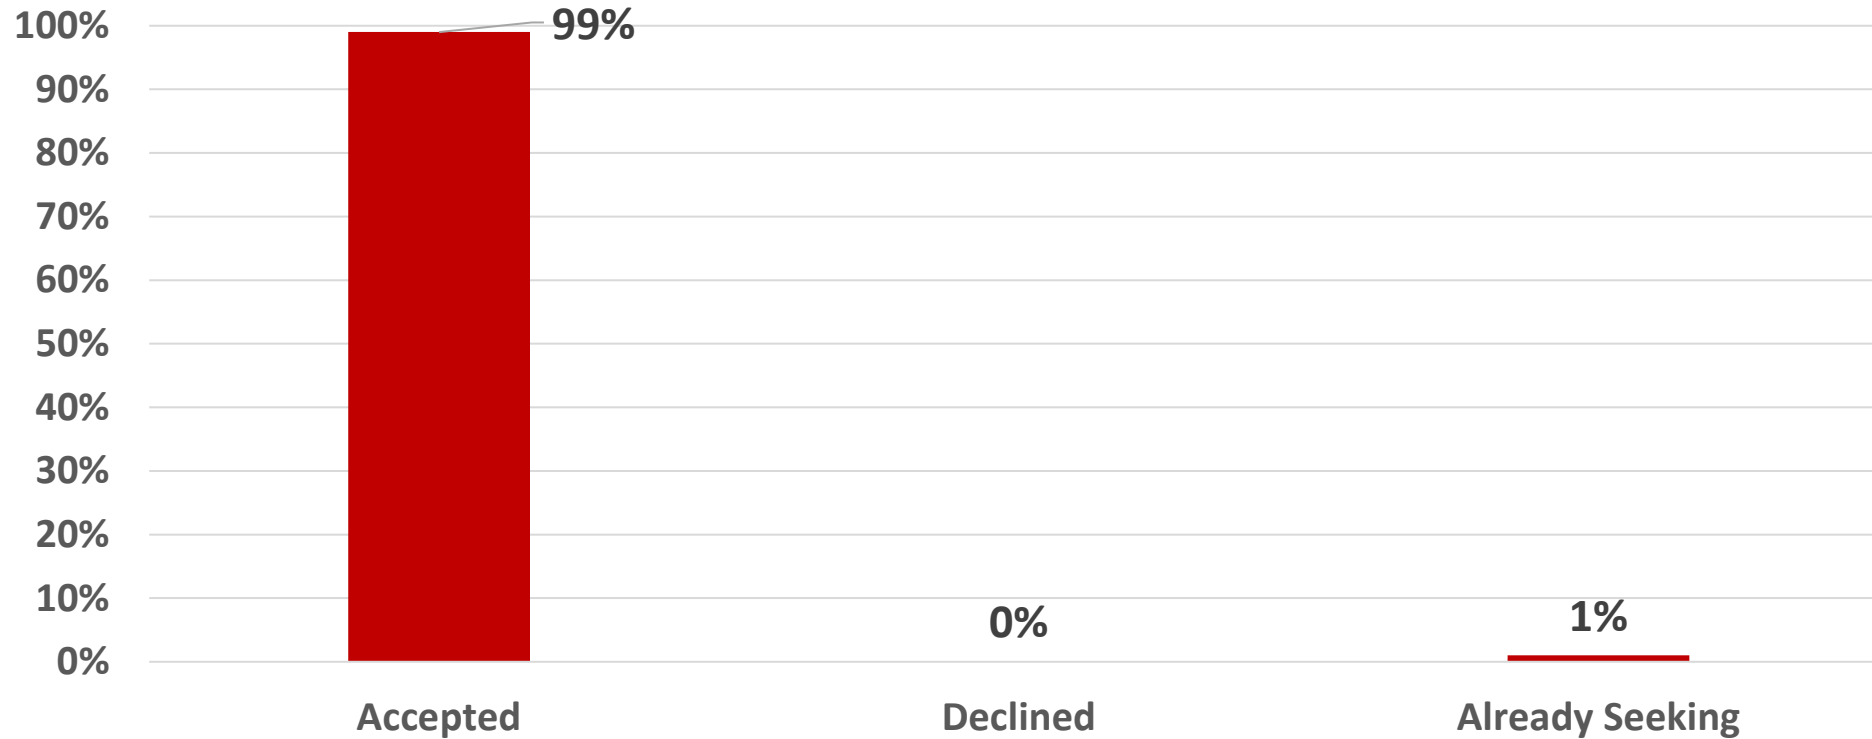

Ninety-nine percent (124) of the successful follow-up visits (125) resulted in contact with the Tier 2 client, **1% (1)** resulted in contact with Family/Friends, and **0% (0)** resulted in contact with both the Tier 2 client and family/friends.

Tier 2: Successful Contact Outcomes

1/1/26 – 3/31/26

Kelley Research Associates

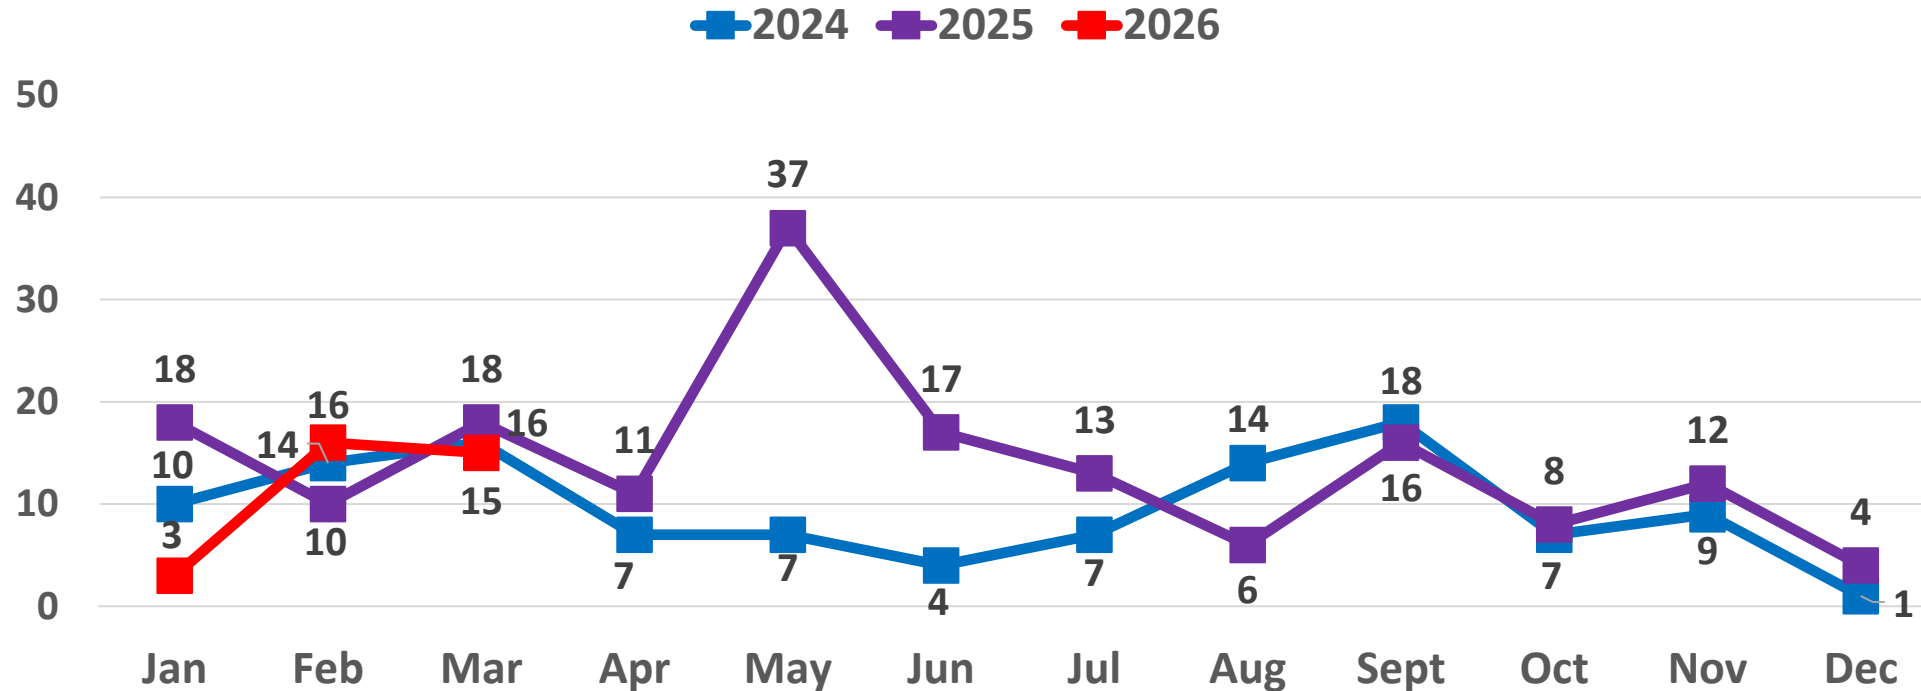

Of the 124 successful contacts with the Tier 2 client (Individual Only and Both): **99% (123)** resulted in the individual accepting information/resources from the outreach team; **0% (0)** declined the offer of information/resources; and **1% (1)** of individuals were already seeking services.

Hospitality Center Update

Hospitality Center Contacts

Kelley Research Associates

There was on average 11.3 hospitality center contacts, or 34 total between 1/1/26 and 3/31/26. Seventy-seven percent (26) were recorded as Hospitality contacts (i.e. not a prior PCO client) and 23% (8) were existing Tier-2 client contacts. Of note, 50% (17) of these contacts took place at the Hospitality Center in Kingston and 50% (17) took place in Brockton during PCO outreach efforts at that location.

Hospitality Center Services Requested

□ Hospitality Center service requests included:

❖ Recovery Coach Support	15 (44%)
❖ Social Visit	13 (38%)
❖ Housing Assistance	7 (21%)
❖ ID/S.S./Birth Cert. Help	5 (15%)
❖ Treatment Options	5 (15%)
❖ Other	7 (21%)
❖ This data can add to more than 100% since more than one service can be requested at each visit	

Hospitality Center Supply Distribution

- In addition to the 34 hospitality center contacts requesting services, another 22 visits involved PCO partner agencies or community members dropping in at the Kingston location to receive supplies.
- Supplies provided between 1/1/26 and 3/31/26 include:
 - 228 Boxes of Naloxone
 - 55 Harm Reduction Kits
 - Four Family Support Packets
 - Three Resource Packets
